

# VaCA

Voltage  
controlled amplifier.

Passive eurorack module.

# VaCA

Set depth of incoming CV for VCA **A**

Set depth of incoming CV for VCA **B**

Mix unattenuated CV for VCA **A/B**

Control voltage input for VCA **A**  
Eg. Envelope, LFO, sequencer etc.

Control voltage input for VCA **B**  
Eg. Envelope, LFO, sequencer etc.

Signal input for VCA **A**

Signal input for VCA **B**

Signal output for VCA **A**

Signal output for VCA **B**

Signal input for mixed VCA **A/B**

Signal output for mixed VCA **A/B**
